PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience designing and delivering scalable web applications using React.js, Node.js, Django, and PostgreSQL. Experienced in RESTful API development, secure JWT authentication, and Docker-based deployments. Currently contributing to production-level systems at Fxis.ai. Adept at building clean, maintainable code across the full stack with a focus on performance optimization and responsive UI design.

TECHNICAL SKILLS

Languages: JavaScript, Python, HTML5, CSS3, Java, SQL, C

Frontend: React.js, Tailwind CSS, Redux Toolkit, Responsive UI Design

Backend: Node.js, Express.js, Django, Django REST Framework, FastAPI

Databases: MongoDB, PostgreSQL, MySQL, Mongoose ORM

DevOps & Tools: Docker, Git & GitHub, Postman, JWT, VS Code, Vercel, Figma

Core Concepts: REST API Design, Secure Authentication, OOP, Performance Optimization, Agile

EXPERIENCE

Full-Stack Developer Intern – Fxis.ai

Jan 2026 – Present

- Developed and shipped production features using React.js, Django REST Framework, and PostgreSQL, contributing to real-world workflow automation.
- Designed and optimized RESTful APIs serving frontend services, improving data fetching efficiency through structured query optimization.
- Collaborated in Agile sprints with the team, participating in code reviews and contributing to cleaner, more maintainable codebases.

MERN Stack Developer Intern – ITHUB Software Solutions

June 2025 | Short-term Internship

- Built full-stack web modules using MongoDB, Express.js, React, and Node.js, gaining end-to-end MERN development experience.
- Integrated REST API endpoints and managed Git-based version control workflows throughout the development lifecycle.

PROJECTS

WorkforceHub

React.js, JavaScript, Django, DRF, PostgreSQL, Docker

- Built a scalable workforce management platform supporting employee records, task tracking, and role-based dashboards.
- Designed a structured PostgreSQL schema with DRF serializers for efficient and reliable data access.
- Implemented secure JWT authentication with role-based access control to protect API endpoints.
- Integrated Redux Toolkit for async state management, ensuring a smooth and consistent frontend experience.

Art Waves – Online Art Platform

HTML5, CSS3, Vanilla JS, Node.js, Express.js

- Developed a full-stack art marketplace supporting product browsing and purchases with a clean, user-friendly interface.
- Built RESTful APIs with Express.js for product listing, user sessions, and order management.
- Designed a fully responsive, cross-device UI with consistent layout across multiple screen sizes.
- Deployed on Vercel with environment-based configuration for a reliable production setup.

Student Management System

MongoDB, Express.js, React.js, Node.js

- Delivered a CRUD-based student record system with real-time add, update, and delete operations.
- Structured MongoDB collections using Mongoose ORM with schema validation for consistent data integrity.
- Built RESTful API endpoints with Express.js, connected to a dynamic React.js frontend with component-based architecture.
- Achieved a fully responsive UI design compatible across mobile, tablet, and desktop screen sizes.

EDUCATION

Gyanmanjari Institute of Technology

2022 – Present

B.E. in Information Technology | 7th Semester | CGPA: 7.44 / 10.0

LANGUAGES

English | Hindi | Gujarati
